

Gadgets & More Electronics - Frequently Asked Questions

Q: How long do I have to return an item?

You have 30 days from the date of purchase to return most items for a full refund, as long as they are unused and in original packaging.

Q: Do you offer refunds or only store credit?

We issue refunds to your original payment method by default. Store credit is available on request, including for returns made without a receipt (subject to manager approval and current selling price).

Q: Can you repair a device I did not buy from you?

Yes, our repair service accepts most phones, laptops, and tablets regardless of where they were purchased. A free diagnostic will determine repair feasibility and cost.

Q: What does my warranty actually cover?

Standard warranty covers manufacturing defects for at least 1 year. It does not cover accidental damage, liquid damage, or unauthorized repairs. Ask about our Extended Care Plan if you want accidental damage coverage.

Q: How do I check the status of my repair?

Contact support with your repair ticket number, included on your drop-off receipt, and we will provide a same-day status update.

Q: Is there a restocking fee for returns?

No restocking fees apply to standard returns made within the 30-day window with original packaging and receipt.

Q: Do you price match other stores?

Yes, for identical in-stock items from major authorized retailers, within 14 days of your purchase. Marketplace and clearance pricing are excluded.

Q: What if my item arrived damaged?

Contact support within 48 hours of delivery with photos of the damage and we will arrange a free replacement or refund, no return shipping cost to you.

Q: How can I reach a real person?

Email support or call during store hours (Mon-Sat 9AM-8PM, Sun 11AM-6PM) and a team member will follow up personally.
